The institutional Strategic/ perspective plan is effectively deployed

Response

The Institute's strategic plan presents a clear, compelling path to a future of greater institutional Distinction.

The perspective plan is reviewed as per the needs of the learners and changes in the policies of Higher Education from time to time. Following aspects are considered for inclusion in the plan.

1. Augmentation in skill based programs.
2. Need for strengthening core/traditional subjects.
3. Strengthening the Student Research.
4. Development of Online Feedback mechanism
5. Automation of library services and creation of institutional repository.
6. Promote extensive use of ICT in all academic and administrative transactions.
7. Awareness campaigns regarding issues pertaining to Environment, gender, human rights, disaster management.

As a part of the strategy, it was decided to enhance institute-industry interface by working closely with industry.

In view of this following modes were adopted:

1. Including industry experts in governing body
2. Joint efforts for inculcating entrepreneurship among the students
3. Providing internships & placements
4. Collaboration for training the students
5. MOUs with industries
6. Industrial visits for professional enrichment
7. Knowledge sharing

Our Objectives

1. To promote and enhance academic-Industry interaction between the Institute and industry.
2. To support & enhance entrepreneurial skills in young graduates.
3. To allow the students of institute for Field Projects.
4. To provide 4 to 8 weeks Internship Programed to the students of the Institute.

6.2.1: *The institutional perspective plan is effectively deployed and functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment, service rules, and procedures, etc*

The institutional strategic or perspective planning process offers stakeholders, such as teachers, students, management, alumni, and other staff members, the opportunity to make informed decisions for the institute's development. The current long-term perspective plan spans from 2022-23 to 2025-26 and is prepared by the relevant departments and sectional heads. It encompasses both quality and quantity goals for the institute.

To ensure effective implementation, the five-year institutional perspective plan is divided into annual plans. Once the annual plan is finalized, appropriate measures and resources are dedicated to its achievement. At the end of each academic year, the implementation of the annual plan is assessed, and necessary steps are discussed and finalized to address any remaining objectives in the following academic year.

The Director and Heads of Department engage in discussions and reviews of the perspective plan and its annual components. If needed, adjustments are made to accommodate new circumstances. The College Development Committee and Board of Control are also kept informed of the progress of the perspective plan. This ensures the effective deployment of the institutional strategic/perspective plan.
